

## **Samuel Lucas JMI PE & Sports Funding 2017/2018**

### **What is the PE and Sport Premium?**

The government is spending over £450 million on improving Physical Education (PE) and sport in primary schools. The funding must be used to fund improvements to the provision of PE and sport, so they develop healthy lifestyles.

### **PE Vision**

At Samuel Lucas we believe that physical education is an essential part of a child's educational development. We have developed a balanced programme offering a variety of activities to enhance skills in physical education. Positive participation in physical education will enable children to build self-esteem, teamwork and positive attitudes. We aim to:

- develop confidence, skills and knowledge
- strive for excellence in a positive manner
- be proud of achievements
- promote fair play and respect
- educate children to improve health and wellbeing
- provide quality opportunities for children outside of school time

This academic year pupils have re-named the school house teams after sports stars and athletes, by the children. A sports committee has also been formed and sports leaders appointed. Samuel Lucas School has introduced inter-house sports competitions, these are being held every half term and being run our pupil Sports Leaders. The competitions include tag rugby, basketball, indoor athletics and also rounders. Currently KS2 are participating in these house team competitions but we will be roiling them out to include KS1 later on.

The children have participated in external cross country matches, they have the local football league and also were winners in the local large school athletics competition and invited to the regional finals.

We are engaging all pupils in regular physical activity, one example of something new they have been trying is circuit training. New action mats have been purchased which form exercise stations and they have had an amazing impact in particular with less active children who are less confident in team sports. Trying different activities at a non-competitive level has had been a great success in increasing fitness levels. Children have also been encouraged to wear training shoes at break times and try out new resources in the playground.

Teaching staff have increased their confidence, knowledge and skills through engagement with external PE consultant appointed to come in a complete a PE audit and provide training.

### **Swimming**

The sports premium funding cannot be used to teach the minimum requirements of the national curriculum including those specified for swimming, however we do need to report the following in regards to our year 6 cohort:

28 children are able to swim competently, confidently and proficiently over a distance of at least 25 metres and are able to use a range of strokes effectively. A further 3 children are able to swim just under the 25 metres, these children have been offered holiday swim courses to improve their ability. More than 50% are able to perform safe self-rescue.

Samuel Lucas expects to receive £18,730 for the academic year 2017-2018. Below is an outline of how we plan to spend the Sports Premium Grant:

Action	Impact	Resources	Planned spending	Evidence
Annual membership to NHSSP	Greater access for interschool competitions.	Supply cover for PE co coordinator days/ competitions	£2,650	Participation in competitions.
Club sports coaches	To increase participation in sports and an increased availability of clubs available to improve the health of pupils.  Football club Rugby club Cross country Tennis Club Netball Club Cricket Club Athletics Club Speed Stacking Club Circuit Training Club Table Tennis Club	Sports equipment  Sports Coaches	£7,000	Increase in participation for less active pupils  More girls taking part in football and other sports  Increased participation in competitions.
PE equipment	Teachers and children to have appropriate equipment to support teaching and learning.  New active mats have been resourced and bought bringing a new dynamic to circuit training and PE lessons.	Equipment	£2,000	More equipment available to use in lessons.
